

SVP cultivates effective philanthropists, strengthens social ventures, and invests in collaborative solutions – building powerful relationships to tackle our community’s social challenges.

Social Venture Partners Tampa Bay is a collective of successful professionals who leverage their time, expertise, and resources to develop strong nonprofits in our community. Partners invest their time and talent in innovative nonprofits while actively nurturing their investments with personal guidance and resources.

TAMPA BAY

Fast Pitch

Established in 2017, Fast Pitch is at its core, a celebration of our community and the amazing work nonprofits do day in and day out. Over the course of 12 weeks nonprofits work to develop the key skills needed to develop sustainable nonprofits

WellBuilt Bikes

As part of our annual Fast Pitch program, nonprofit participants often remain connected to SVP partners to continue on their journey for growth and development. WellBuilt Bicycles is a prime example of how a long term relationship with SVP creates a path towards long term sustainability.

Lealman Exchange

Social Venture Partners provided an in-depth analysis and advisement on the plan development in general, but also specifically on finer points such as suggesting models for resource allocation, approaches to tenant partnerships, financial modeling and forecasting, legal aspects for proposed program

Adoption Related Services

ASRP has made changes in every area that did not rank well, including increasing the number of board members, developing a strategic plan, increasing their social media presence, and working towards diversifying funding.

Echo of Brandon

During the Fast Pitch program, SVP partners worked tirelessly with Eleanor to develop an impactful story that encompasses the amazing work that Echo does in our community, while weaving in the narrative of Echo Handmade, their social enterprise that was providing much needed sustainable revenue into the organization

TAMPA BAY

Ready for Life

A part time CFO was engaged to support RFL to manage and put up-to-date budgets into place.

With the assistance of partners, three strategic planning sessions were facilitated with the BOD to analyze efforts that had been effective and establish what the goals of the organization should be going forward.

Tampa Bay Healthcare Collab

Development of a strategic plan for the launch of a community collaboration app to enable the organization to pivot during the pandemic and continue to serve the community. After the successful launch of the app, SVP partners re-engaged with TBHC to develop creative ideas for revenue generation from the app.

Saving Our Seniors

Saving Our Seniors has been working towards locating a warehouse space in order to gain additional licensing, creating strong operational infrastructure, and implementing an inventory system to be able to resell surplus durable medical equipment for additional revenue streams to her organization.

The Skills Center

The facility will offer a unique "Service Model" that will house 5 experienced youth serving organizations in a coordinated approach to leverage resources, programming and funding. This state of the art, multipurpose Center will encompass a wide range of programming, sports and events. SVP partners worked with TSC to iron out initial planning, then introduced Capex Advisory Group into the project. SVP will continue to gather updates from Capex as well as The Skills Center as they navigate their path to their new space.
